- 1. New Classmates**-Your attitude is everything. A new room of classmates is like going into a mansion with several doors. Open each door and see what's inside. You may find a treasure or friend!
- 2. Getting Lost**-It is extremely comforting for younger students to visit their new school ahead of time in order to see their new classroom, or walk down the school's hallways before the hustle and bustle of the first day. Many schools provide a day during registration or the week before. Call your school office to make arrangements.
- 3. Fashion**-Although we hate to admit it...this matters to kids-- especially in the older grades. Before shopping, go through catalogs and magazines to get an idea of what your child wants to wear. Encourage independent style and self expression. Working as a team in this area can be frustrating, but if your child likes their wardrobe---everyone is happier. And don't forget to refer to your school dress-code regulations.
