Spring Cleaning Time

It is just about that time again! Yes it is almost spring cleaning time again. When the snow thaws and everything looks so dirty, it is time to clean.

We would like to ask everyone to check your patio or balcony. If there is something out there that does not belong, please either put it in your storage or throw it away. The only thing that should be on your patio or balcony is patio furniture, plants or wood if you have a fireplace. It is your responsibility to keep your area clean.

When we are out showing apartments we like to show everyone what a nice place we have here at Shakertown.

So when the weather breaks take a few minutes and check out your patio or balcony.

Rent Reminder

Please remember that rent is always due on the 1st calendar day of each month. On the 6th day a late fee of \$25 is added to your account.

ALSO DO NOT FORGET YOUR APT. NUMBER

It's has been a Pleasure Serving You!

From the Property Manager Cheryl Niesz

"I want to take this opportunity to say goodbye to my Shakertown Residents. I have enjoyed my time here! I am off to the next chapter in my life! Thanks for the memories!"

Daylight Savings time Begins

March 8, 20145

Daylight Saving Time gives us the opportunity to enjoy sunny summer evenings by moving our clocks an hour forward in the spring.

Yet, the implementation of Daylight Saving Time has been fraught with controversy since Benjamin Franklin conceived of the idea.

St. Patrick's Day

Saint Patrick's Day celebrates Saint Patrick (386-493), the patron saint of Ireland. It is the national holiday of Ireland and celebrated worldwide by Irish people and those honoring the traditions and "luck of the Irish" by wearing green, drinking beer, celebrating with parades.

Many folk ask the question 'Why is the Shamrock the National Flower of Ireland?' The reason is that St. Patrick used it to explain the Holy Trinity to the pagans.

Irish Sayings and Verses

Irish Diplomacy... is the ability to tell a man to go to hell so that he looks forward to making the trip.

Murphy's Law... Nothing is as easy as it looks. Everything takes longer than you expect. And if anything can go wrong, it will, at the worst possible moment.

MAINTENANCE TIPS

*Keeping your blinds closed will make a dramatic impact in overall cost savings, especially on windows that have a southern or western exposure.

* Be diligent about keeping all unneeded lights turned off. The heat from the bulbs adds to the increased temperature in your home.

ELECTRICAL TIPS:

My power is off. Check the breakers. If that does not work call the office.

PLUMBING TIPS:

My toilet is stopped up. Try unstopping the toilet with a plunger. If you do not own a plunger you can purchase one from any hardware store.

BATHROOMS

Commode: If your toilet overflows, the water shut-off valve is to the left of the basin. Turn the knob clockwise to shut off, then plunge. If the problem persists or the toilet runs continuously, please contact the leasing office for maintenance assistance.

Sink: If bathroom sink is leaking, the shut-off valve is located underneath sink. Turn knob clockwise being cautious of hot water valve. Please report all leaks to leasing office as soon as possible.

A special report from Robert Young (our Grounds Keeper)

March into Maple Month

The other day I read an article entitled "March in to Maple Month", as I read, my thoughts went back to when I was a young boy; and our family would visit the farm of an Uncle in Vermont. In March, he would tap his sugar maple trees to get sap to take to his "sugar house" where it was boiled down to make REAL maple syrup. That was a neat experience to see how maple syrup is made.

What a surprise, this afternoon, my wife Molly, received the "Country Gardens" magazine in the mail, and starting on page 93 was an article about making maple syrup, with photos.

Also, Hale Farm & Village located in the Cuyahoga Valley near Bath, Ohio is conducting a Maple Sugar Festival March 17, 18, 24, 25 Presented by Bob Evans Restaurants. For more information go to <http://www.wrhs.org/>

So, as the month of March comes in this year, I look forward to maple syrup, maybe even maple flavored butter. If you follow the recipe below, you too can make your own maple flavored butter and we can all have the sweetness of maple syrup on pancakes or as butter on a home-made biscuit.

Maple Flavored Butter

Use two (2) parts of soft butter to one (1) part maple syrup; blend well with electric mixer, then chill for 20 minutes before serving.

BAILEY'S IRISH COFFEE RECIPE

Bailey's Irish Coffee Recipe is probably the most famous and preferred Irish coffee recipe around. If you do a simple internet search, you will find all of the variations of making this hot drink. Bailey's Irish Coffee is a great way to wind down the night with dessert. However, you may find that this elegant mix will actually keep your family and guests up well past their bedtime. You can also have this wonderful drink when you are looking to give yourself a special treat. Its rich taste just begs for you to make it every time you sit down for a cup of coffee. It is especially fulfilling on those long winter nights.

WHAT YOU NEED

A glass	Sugar
Freshly brewed coffee	¾ ounce of Bailey's
Homemade whip cream	A stirrer A warm spoon

DIRECTIONS

In a preheated glass, pour the Bailey's in. At this time you can add the sugar for a sweetened taste. Slowly add the freshly brewed coffee while continuously mixing the liquid. All of the sugar should be dissolved. With the back of a warm spoon, add the whip cream to the Irish coffee mixture. Be sure to not break the coffee's surface with the whip cream. It is likely that this part of the Bailey's Irish coffee recipe will take some time to hone in on this particular skill. And voila, there you have your very own first serving of a homemade Bailey's Irish Coffee recipe.
