Emergency Maintenance

We here at Shakertown pride ourselves on the Natural wooded area in which our home is located, but with that comes responsibility. We share our home with other living creatures that live around it. We have seen mice, raccoons, snakes and groundhogs. We have to be vigilant to keep them safely outdoors.

We would like to ask people who have garages to Please keep the doors closed

Know When To Seek Help
Sometimes it's best to leave the work to the pros like malfunctioning appliances and clogs that don't respond to plunging. If you see water dripping from a faucet or leaking from a pipe call our office immediately so it can be repaired. Thanks!

SCHOOL BUS STOP

The school bus stops at the entrance of Shakertown. Please if you drive your children do not park on the grass. We would like to wish all of the children a happy school year. Study hard and play hard, it is all worth the extra effort.

Office Closed

The office will be closed Monday, September 4, 2017 in observance of Labor Day. We will re-open Tuesday at 10am
Have A Safe And Happy Holiday!!!

Did You Know?

Built in the 1820s and 1830s, the Ohio & Erie Canal was carved from the wilderness to provide an invaluable link — from Lake Erie to the Ohio River — in the nation's transportation system, completing an inland water route between the East Coast and Gulf of Mexico.

By connecting the Ohio frontier to New York and New Orleans, the Ohio & Erie Canal helped people and products flow across America, fueling westward expansion, a national market economy and burgeoning regional industrial might.

Today, the Ohio & Erie Canalway is a National Heritage Area, designated by Congress, to preserve and celebrate the first 110 miles of this canal that helped Ohio and our country grow.

Cookin' on the Canal

In 1908, Mrs. Gundling related her memories of being the cook on a dredge boat, where she earned \$50 a month, more than her dredge-operating husband. "I baked bread, pie, and cake every day on that old coal stove. I had to cook breakfast and supper twice each day. . . But I only had to cook dinner once a day. There was midnight lunch to set out for the men, too, before I went to bed." Though the work was hard, she also enjoyed square dances at neighboring farms and theater shows in Akron. "We had our good times, too."

MAINTENANCE TIPS

PREP FOR FALL & WINTER

FIREPLACES: It is almost time to start building a fire again in your fireplace. Please always remember to make sure the damper is open before lighting a fire and close the screen after the fire is lit to keep sparks from flying out on to the carpet. Do not stack extra wood too close to the fireplace. Enjoy and stay safe!

Watch for Autumn Fairies

Lovers of fairies are spoiled for choice come the Fall - autumn fairies come in glorious shades of autumnal red and gold, bedecked in nature's splendor.

From the elementals and nature spirits, to mischievous pixies and regal elves, fairies come in all shapes and sizes. They are closely connected to the natural world, and love beauty, so autumn is a special time for fairies. Leaves are turning gold and falling

to the ground, and the earth is preparing for winter.

Look closely among the fallen leaves and you might spot an autumn fairy or two!

Come said the wind to the leaves one day. Come o're the meadows and we will play. Put on your dresses scarlet and gold, For summer is gone and the days grow cold.
